AUTOADESIVI
MAGRI

It's a reality in the forefront of the adhesive tapes production

Established in 1979, Autoadesivi Magri s.r.l. is located in a village called Mascarino-Venezzano, near the city of Bologna.

Proudly, Magri's family, can boast the presence in the company of the third generation.

It's a reality in the forefront of the adhesive tape production, with a manufacturing facilities that extends itself on a 33000 m² surface of which 13000 m² are covered, all of it is dedicated to the production of PET, KRAFT, PVC, BOPP, printed and coloured adhesive tapes and tapes for special application such as masking, reinforced, metallized, matt, low tack, high tack.

The versatile and well- organized frame allows to cut down the indirect costs and to pay particular attention to the quality of the produced adhesive tapes. During last few years, the production capacity is doubled thanks to a new equipment of first technologic level.

We are present in the world market, where are able to keep our advantage on all the competition, and we confirm our role as a great benchmark.

Technology at the constant service of the environment

Since our sensitivity to the environmental problems, Company Magri has been provided with latest generation systems used for the whole manufacturing process and plants with low environmental impact. In 2010 a photovoltaic system became operative. It has allowed us to decrease the CO₂ intake more than 500.000 kg.

Product shelf life and storage: 12 months (6 months for printable materials), based on the product being stored at 23°C - 60% relative humidity out of direct sunlight.

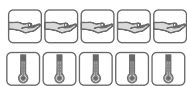

Technical information is gained from sample tests conducted on a material similar to that produced and purchased within the six months preceding the date of order's completion. These data therefore indicate a reference average value to the specifications established by Autoadesivi Magri.

Appearance and technical features are subject to variations over time caused by ageing, anyway they do not affect the product's quality and functionality.

Printed tape

Today MAGRI prints on all types of supports and offering its customers the chance to personalize their adhesive tapes however they wish.

“ON THE TOP” printed tape

“On the top”, a consolidated printing technology, realizable on different material (PVC tapes, BOPP, PET, KRAFT). It's recommended for medium-low quantities.

All steps relating to the production of printed tapes are integrated in company.

Starting from our graphic department, which designs the artworks and submits them to customers for approval, to the realization of the cliché by CTP and finally the printing of the tape.

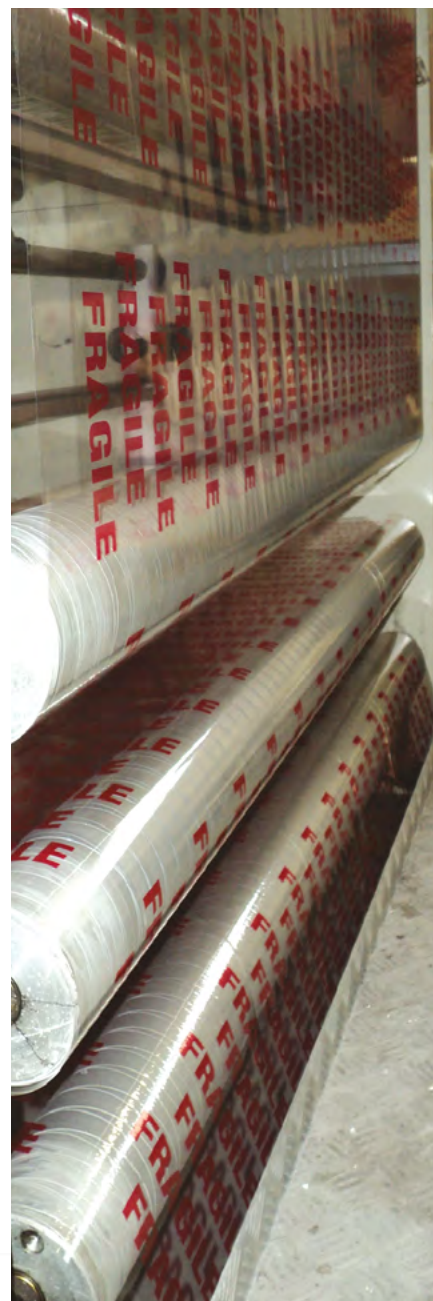

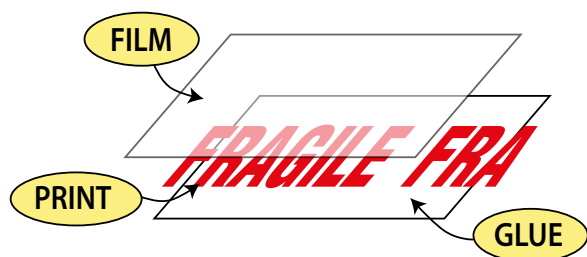

In this way, the most demanding customer requirements can be met and delivery times optimised.

“SANDWICH” printed tape

Sandwich or “PREPRINTED”, a forefront printing technology which guarantees a better quality, more protection and long-lasting print, suitable for medium-high quantities.

The printing is trapped and protected between the film and the layer of glue.

In order: FILM – PRINT – GLUE

MAXXI TAPE

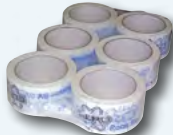

MAXXITAPE - PVC and BOPP tape with 1,5" and 2" core

Features

- **Maxxi SPACE** - significant space reduction due to the 1,5" and 2" core.
- **Maxxi LENGTH** - more meters than tapes with standard cores.
- **Maxxi ECONOMY** - significant reduction of the space and easier movement.
- **Maxxi ECOLOGICAL** - less material to dispose, for the benefit of the user and the environment.
- **Maxxi PRINTABLE** - it can be printed.
- **Maxxi DISPENSER** - dispenser low noise available.
